REGISTRATION

Have you ever thought about exporting but don't know where to start? Here's a great opportunity to learn how to export from international trade experts at no cost!

California is one of the ten largest economies in the world, with much of our state benefiting from international trade, tourism and investment. California firms export to more than 220 foreign markets. If you are not one of the exporting firms, the California Asian Pacific Chamber of Commerce (CalAsian) invite you to participate in a no cost Export 101 Workshop series event.

CalAsian has partnered with the U.S. Department of Commerce and DHL Express to assist small and medium-sized businesses in California on how to leverage Federal, State, and Local export assistance programs. International trade experts will share valuable information on how to export and help you understand the benefits of international trade and foreign investment to the U.S. economy.

Register and attend this free event to hear from experts, gain valuable insights, and learn what you can do drive international business to your doorstep. Detailed registration information and the event agenda will follow soon.
