ABOUT CAMEO

Founded in 1993, California Association for Micro Enterprise Opportunity (CAMEO) is the largest state-wide microenterprise association in the country and serves as an industry leader from San Francisco to Washington, DC. CAMEO highlights best practices within the sector and advocates for increased awareness, public policies and support for the nation’s smallest, most ubiquitous businesses. CAMEO’s mission is to grow a healthy, thriving environment for all entrepreneurs and start-up businesses by advancing the work of our statewide member network. Our vision is to create economic opportunity for all entrepreneurs, to build wealth and strong communities.

CAMEO’s 122 members provide entrepreneurs with small business training, business financing, and technical assistance - coaching, capital, and connections. CAMEO is in the midst of an exciting transformation aimed at strategically implementing a set of targeted priorities and strategies as identified by its Trailblazer Task Force in February, 2017. Priorities include: Expand CAMEO’s reach; Promote New Era Workforce/Reposition Micro Sector; Build Capacity through Targeted Programs; Increase Funding for Members; Scale up Micro Lending; and Advocacy.

ABOUT THE POSITION

The Role

Reporting to the Board of Directors, the Chief Executive Officer will be responsible for providing the leadership and management of CAMEO as it builds on its past achievements and positions itself for continued growth based on its future objectives. The CEO will lead all aspects of the organization with a specific focus on communicating the impacts of micro business, enlivening the member network, setting strategy, and securing resources that help our members expand and sustain CAMEO’s operations. The CEO enables the Board to fulfill its governance function, reports to the Board of Directors, and serves as a voting member of the Board.

Continuing CAMEO’s role as an “innovation lab,” the CEO leads the conceptualization, design and implementation of new programs that will result in expansion of member programs to serve more LMI entrepreneurs. This includes promoting new research and thought leadership to better serve emerging self-employed entrepreneurs; identifying under-served segments of micro business owners; testing new technology tools and platforms that could increase efficiency and effectiveness in program delivery to LMI entrepreneurs.
